Jesus Heals Ten Lepers

Jesus was travelling to Jerusalem and arrived at a village on the border between Galilee and Samaria.

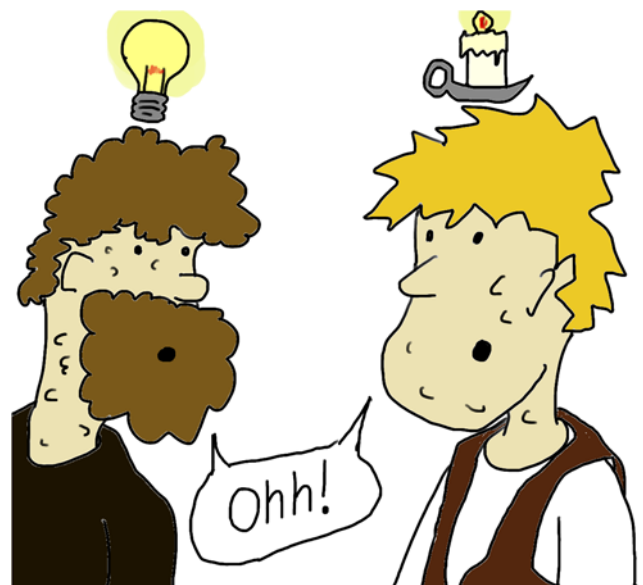

As he headed into the village, ten men stood at a distance.

Fact Scroll

Leprosy in Bible Times

1. A skin disease - spreads to nervous system.
2. Thought to be highly contagious.
3. Lepers isolated and excluded from the community.
4. It was thought that having leprosy was a consequence of sin.

These men had leprosy. In bible times anyone with this disease was isolated from the community.

Jesus Heals Ten Lepers

While Jesus was still a little way off they cried out, “Jesus, Master, have mercy on us!”

Jesus looked at them and said, “Go and show yourselves to the priests.”

(Only the priests could declare a person well again).

And so as they turned to go find the priests...

...they were all healed of their leprosy.

Jesus Heals Ten Lepers

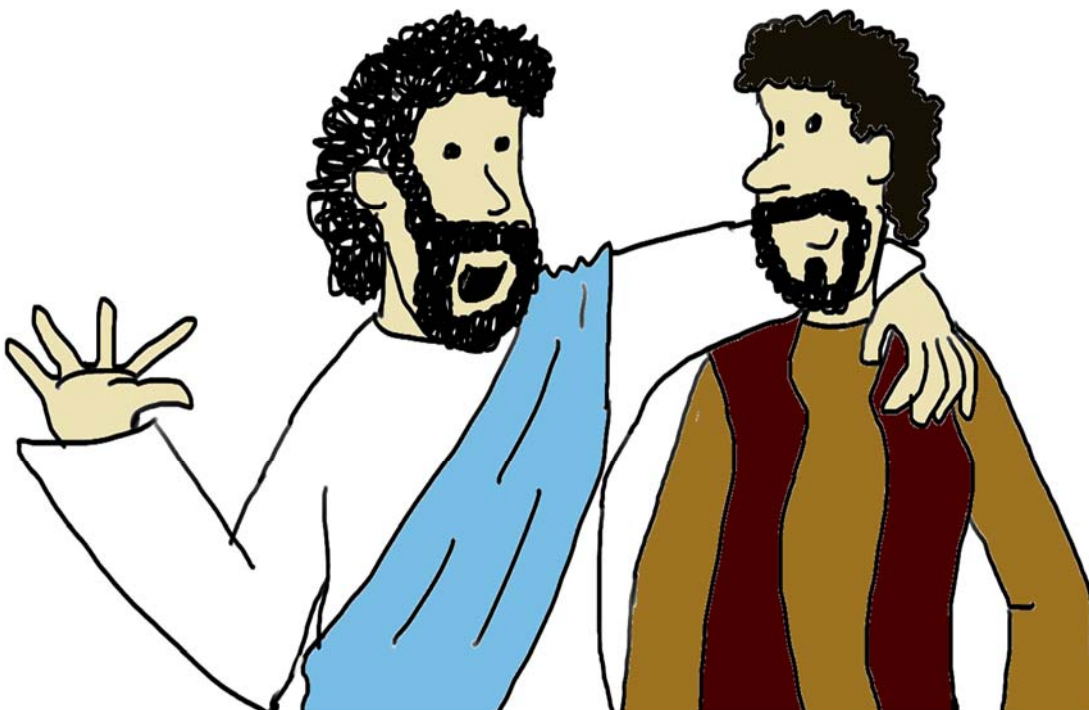

When one man, a Samaritan, saw that he had been healed he ran back to Jesus shouting, "Praise God!"

He fell to the ground at Jesus' feet and thanked him for what he had done.

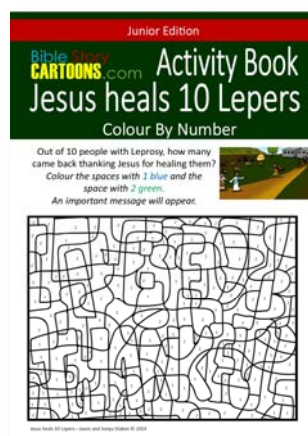

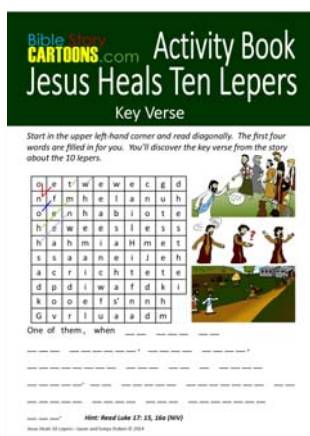

Jesus asked, “Were there not ten men that I healed? Where are the other nine? Yet only this foreigner, a Samaritan, has returned to give glory to God!”

With this, Jesus said to the man, “Get up and go. Your faith has made you well.”
